RE: Challenge to Digital Path Sacramento County CASF Application

Dear Mr. Osborn:

Citizens Telecommunications Company of California Inc. d/b/a Frontier Communications of California (U-1024-C) (Frontier), pursuant to Section 281(b)(2) of the Public Utilities Code, hereby submits to the California Public Utilities Commission (CPUC) a challenge to the pending application of Digital Path for an infrastructure grant of \$230,738 from the California Advanced Services Fund (CASF) for the Sacramento County Project.

The Sacramento County Project Summary proposes to serve census blocks that are already served by Frontier with service at or above the required speed of 6/1 Mbps. Unfortunately, the CPUC's California Interactive Broadband Map (Broadband Map) only reflects deployment data as of December 31, 2018, and thus, does not provide applicants with the most up-to-date deployment information to assess areas that are eligible for a CASF grant. By no fault of Digital Path the Broadband Map did not reflect the most current status of service, and thus, Frontier must challenge this application to avoid an overbuild and also to be a good steward of precious state funds – especially in a year of unprecedented application submissions.

To provide more detail in support of this challenge, Frontier hereby provides to the Commission the confidential attachments pursuant to D.18-12-018:

- The geographic location of all households that are served. This information shall be provided in a plain-text, comma-separated values (CSV) file, that contains geo-located street address information, including latitude and longitude coordinates.
- Customer billing from one subscriber in each census block challenged indicating that the customer received served speeds at least one day prior to the application filing.
- An attestation that the households identified in (a) are offered service and have the capability to receive minimum speeds of 6 Mbps download and 1 Mbps upload.

This information is regarding the following census blocks¹:

60670099001102*
60670099001006*
60670099003014*
60670099001101*
60670099001024

60670099001025*
60670099001008
60670099001009*

Thank you for your consideration of this challenge, and please contact me with any questions at 916-683-7989 or amy.warshauer@ftr.com.

Respectfully submitted,

Amy Warshauer
Manager, Government and External Affairs

¹ "*" Represents a Census Block where Frontier service is available but no customers are currently subscribed.
