Application of Southern California Edison
Company (U 338-E) for Approval of Its Grid
Safety and Resiliency Program.

Application 18-09-_____

**APPLICATION OF SOUTHERN CALIFORNIA EDISON COMPANY (U 338-E)
FOR APPROVAL OF ITS GRID SAFETY AND RESILIENCY PROGRAM**

I.

INTRODUCTION

Pursuant to Articles 1 and 2 of the Rules of Practice and Procedure of the California Public Utilities Commission (Commission or CPUC), Southern California Edison Company (SCE) respectfully files this Application requesting Commission approval to record and recover the reasonable costs of the Grid Safety and Resiliency Program (GS&RP), as described herein. SCE’s proposed GS&RP is described in this Application and supporting testimony (preliminarily identified as Exhibit SCE-01). The supporting testimony also explains SCE’s proposed ratemaking treatment for this proposal.

II.

EXECUTIVE SUMMARY

In this Application, SCE requests Commission approval to record and recover the reasonable costs of its GS&RP. The GS&RP is designed to implement measures addressing emerging state policy directed at reducing wildfire risk, the increasing magnitude of which was brought to light in a series of devastating fires in the latter half of 2017. These unprecedented events have continued into 2018 and well before the typical “wildfire season”: in August 2018, firefighters battled 15 large fires, including the largest fire in state history, the Mendocino Complex Fire. Although SCE had previously implemented a number of measures to address

wildfire risk across its service area, it agrees with the Governor, legislators, and other state officials that even greater efforts are now required to adapt to the “new normal” of a year-round, potentially catastrophic wildfire season. This includes, as the Governor has stated, making even greater investments in wildfire-related safety enhancements, such as those pertaining to the design, construction, maintenance, and operation of electrical lines and equipment.¹

To that end, SCE’s GS&RP contemplates broader, more advanced measures than those described in its 2018 General Rate Case Application (A.) 16-09-001 (2018 GRC).² It is a comprehensive program and is expected to last through at least 2025, incorporating leading practices and mitigation measures selected based on their effectiveness and with appropriate consideration of potential costs. These measures will help enhance the safety of the electrical system and make it more resilient during wildfires, consistent with the state’s vision. They will also benefit other key stakeholders by, for example, improving fire agencies’ ability to detect and respond to emerging fires in coordination with utility emergency management personnel.

These additional measures involve costs above amounts currently authorized in rates or requested in the 2018 GRC. SCE is therefore requesting through this Application that the Commission review the GS&RP and authorize 2018-2020 program costs incremental to those requested in the 2018 GRC and essential to reducing the risk of what has now become a year-round wildfire season. SCE also requests Commission approval of the following ratemaking mechanisms for incremental program costs recorded prior to 2021, when its next GRC will take effect:

1. **An interim GS&RP Memorandum Account (GS&RPMA)**, to be effective as of this Application’s filing date, to permit SCE to record incremental program costs during this proceeding; and

¹ See Letter from Gov. Brown to Sen. Dodd and Assemb. Holden (July 24, 2018).

² The 2018 GRC was filed in 2016, before the state recognized the sharply increased risk of devastating wildfires.

2. **A two-way GS&RP Balancing Account (GS&RPBA)**, effective upon a final Commission decision, to recover incremental costs associated with implementing this program.

The GS&RP costs that SCE expects to incur beginning in 2021 and through 2023 will be addressed in SCE's 2021 GRC which will be filed in September 2019, and any costs beyond 2023 will be addressed in future GRCs.

Concurrent with filing this Application, SCE is also filing a Motion requesting the Commission to deem the GS&RPMA effective as of the Application's filing date.

III.

OVERVIEW OF SCE'S APPLICATION

A. California's Wildfire Risk Landscape Has Changed Dramatically

California's wildfire risk has increased in recent years due to climate change and drought, plus other factors like the growing wildland-urban interface and significant buildup of fuel on federal and state forest lands. The magnitude of this threat and its serious consequences, however, was not apparent until a series of devastating wildfires burned through the state in 2017. To date, 2017 was the costliest and deadliest year of wildfires on record, with California experiencing five of the 20 most destructive fires in its history. Of these, the Thomas Fire occurred as late in the year as December—an unprecedented event for a fire of this magnitude.

Governor Brown and the California Department of Fire and Forestry (CalFire) officials, among others, agree our state has now entered an unprecedented “new normal” of a year-round wildfire season.³ The significant wildfire activity in 2018 is validating this conclusion, with 15 large wildfires having burned across the state during August. Two of these wildfire fires were among the largest in California history: the July 2018 Mendocino Complex Fire is the largest

³ Ruben Vives et al., *Southern California's Fire Devastation is the 'New Normal' Gov. Brown Says*, N.Y. TIMES (Dec. 2017), available at <http://www.latimes.com/local/lanow/la-me-socal-fires-20171210-story.html>; see also CA. Exec. Order No. B-52-18 (May, 2018), available at <https://www.gov.ca.gov/wp-content/uploads/2018/05/5.10.18-Forest-EO.pdf>.

fire in state history, and the July 2018 Carr Fire is the seventh largest.⁴ As of August 29, 2018, California’s 2018 wildfires have burned over 1,121,916 acres,⁵ damaged or destroyed over 2,500 structures,⁶ and resulted in six fatalities.⁷

The Governor recently outlined a grim future for our state in terms of escalating wildfire risk, explaining that “[t]he more serious predictions of warming and fires to occur later in the century, 2040 or 2050, they’re now occurring in real time.” He stressed that our state must now “adapt” to these devastating fires by “chang[ing] our technology.”⁸ Although fires start for many reasons, the Governor made clear that electric utilities have a role to play in helping address this broad threat by making even greater investments in safety and further strengthening and enhancing the construction, maintenance, and operation of electrical lines and equipment.⁹ This view is shared by the state legislature, which, as President Picker recently noted, “has made it very clear that they expect us to do everything we can to prevent fires caused by [power lines owned by] regulated entities.”¹⁰ The legislature recently approved Senate Bill (SB) 901,

confirming its intent that electric utilities “construct, maintain, and operate [their] electrical lines and equipment in a manner that will minimize the risk of catastrophic wildfires posed by those electrical lines and equipment.”¹¹

B. SCE’s GS&RP Will Help Address California’s Increasing Fire Risk by Further Hardening the Electric System and Enhancing Utility Situational Awareness and Operational Capabilities

Fire mitigation has been an integral part of SCE’s operational practices for years, and SCE has several programs already in place that either directly manage this risk or contribute to reducing it. However, the 2017 and 2018 fires emphasize that California’s wildfire risk has increased to the point where the safety of our communities requires additional measures to address a higher level of wildfire risk not contemplated by existing state standards or traditional utility fire mitigation practices. Accordingly, SCE has undertaken an assessment of a number of enhanced wildfire mitigation measures and approaches that it has commenced deploying, or proposes to deploy, in its service area.

SCE developed its GS&RP to be a comprehensive program that brings together a number of practices and mitigation measures selected based on their effectiveness in wildfire-prone environments and with appropriate consideration of projected cost. The program’s core objectives are bolstering fire prevention (i.e., reducing potential ignitions) and suppression (i.e., more rapid identification and assessment of wildfires) activities, and enhancing system resiliency. To accomplish these objectives, the program includes a portfolio of additional mitigation measures focused on: (1) further grid hardening; (2) enhanced situational awareness; (3) and enhanced operational practices, among other things. Below is a summary of key aspects.

1. Grid Hardening

SCE plans to further “harden” its infrastructure to significantly reduce potential fire ignition sources. Historical data shows that over half of all fires associated with SCE’s

¹¹ Senate Bill 901, 2017-2018 Reg. Sess. (Cal. 2018). To date, SB 901 is awaiting the Governor’s signature.

distribution infrastructure in HFRA were caused by foreign objects, such as palm fronds, metallic balloons, debris, etc., contacting electric facilities. To address this, SCE's grid hardening approach centers on replacing standard "bare" overhead conductor (i.e., exposed electric wires) with "covered" conductor, which is covered with special layers of insulation materials that protect electric lines against contacts from foreign objects. SCE will also install fire resistant, composite poles as part of this effort when appropriate.

Additionally, SCE plans to focus on limiting potential faults from igniting wildfires by adding (or replacing, as necessary) certain devices on its system to mitigate for fault-related ignition risks. SCE intends to install additional fuses that activate quickly to reduce the energy transmitted due to faults and, accordingly, further reduce the risk of ignitions from faults. SCE will also install remote-controlled automatic reclosers and circuit breakers with high-speed, "fast curve" settings to enable recloser relay blocking during Red Flag Warnings, which may reduce the frequency and duration of some public safety power shutoff events.

2. Situational Awareness

The second important feature of SCE's GS&RP is enhancing existing situational awareness capabilities to more fully assess potential wildfire conditions and develop appropriate operational plans, including preventive power shutoffs to mitigate wildfire risk. Importantly, these efforts will help both fire agencies and SCE emergency management staff in assessing and responding to wildfires. This includes deploying additional weather stations along circuits in high fire risk areas (HFRA), and installing HD cameras that will enable state and local fire agencies, and SCE emergency management staff, to more quickly respond to wildfires. SCE is also obtaining advanced computer hardware and deploying state-of-the-art software that will run a sophisticated High Resolution Weather model to support planning and operational decisions to reduce wildfire risk, and increasing staffing of fire management personnel and meteorologists.

3. Operational Practices

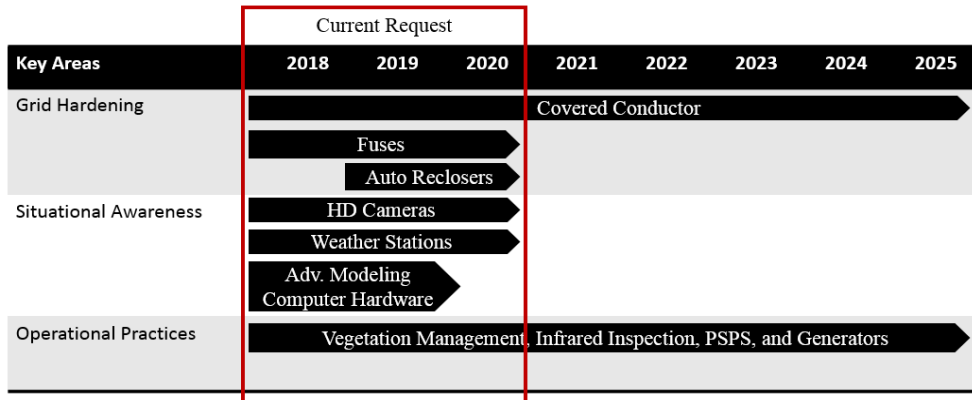

The third prong of the GS&RP is developing programs to further strengthen operational practices regarding fire prevention and system resiliency. Among these, enhancing

SCE's vegetation management program is a priority. SCE intends to focus on proactively assessing and, as needed, mitigating trees that pose a blow-in / fall-in threat to electrical facilities but are located outside existing, required clearances and are not already dead, sick, or dying. Other operational practices SCE included in this filing are regular infrared inspections of the distribution system in HFRA to reduce potential wire and equipment failure that could lead to ignitions, and customer outreach and operational measures associated with proactively de-energizing power lines as a "last resort" measure during extreme fire conditions, known as the Public Safety Power Shutoff (PSPS) protocol.

C. GS&RP Deployment Timeline

Table III-1 is SCE's estimated project timeline. This program will span several years, but in this filing SCE is only requesting Commission approval of planned programs and efforts scheduled for 2018-2020, which were not included in its 2018 GRC. The GS&RP costs that SCE expects to incur beyond 2020 will be addressed in future GRCs, including SCE's upcoming 2021 GRC, which will be filed in September 2019. Given the need to take action immediately, SCE is already deploying some aspects of the GS&RP, such as starting installation of covered conductor on the most critical risk circuits and beginning to deploy weather stations and HD cameras in HFRA. SCE anticipates accelerating program activities in the fourth quarter of 2018, and incurring substantial, incremental costs as part of that activity.

**Table III-1
Grid Safety and Resiliency Program Deployment Timing**

D. GS&RP 2018-2020 Incremental Costs

As the above timeline shows, significant portion of SCE’s proposed covered conductor program will be included in its upcoming 2021 GRC. Here, SCE’s Application is focused solely on obtaining Commission approval of GS&RP program activities and associated incremental forecast costs not included in its 2018 GRC proceeding, A.16-09-001, and covering the 2018-2020 period. This approach allows SCE to recover costs associated with effective mitigation measures it believes can be deployed in the near term, including installing covered conductor on approximately 500 circuit miles of the approximately 10,000 total circuit miles in SCE’s HFRA.¹² Table III-2 summarizes program activities, forecast incremental costs, and the associated revenue requirement in SCE’s request.

¹² SCE expects to continue advancing its understanding of enhanced fire risk mitigation measures, and will continue to refine its risk mitigation efforts as part of the GS&RP.

Table III-2
Forecast of Incremental Costs and Revenue Requirements of GS&RP in the Near Term (2018-2020)

Grid Safety & Resiliency Program					
Line	Description	2018	2019	2020	Total
1	Capital (2018 Constant \$000)	54,371	112,137	240,781	\$407,290
2	O&M (2018 Constant \$000)	8,095	53,235	113,712	\$175,042
3	Revenue Requirement (Nominal \$000)	10,490	67,349	151,233	\$229,072

E. Revenue Requirement and Cost Recovery

SCE proposes to establish: (1) an initial GS&RPMA to be effective on September 10, 2018, the date of this Application; and (2) the GS&RPBA, effective upon a final Commission decision. Both accounts will record the actual GS&RP incremental O&M expenses and capital-related revenue requirements (e.g., depreciation, return on rate base, property taxes, and income taxes) to provide for the recovery of all recorded GS&RP-related costs. Amounts recorded in the GS&RPMA would be transferred to the GS&RPBA upon a final Commission decision. Beginning in 2019, SCE requests authority to include in distribution rates a forecast GS&RP revenue requirement for each year until the time these revenue requirements are included in SCE’s 2021 GRC.

SCE respectfully requests the Commission to authorize the GS&RPMA immediately, so SCE can begin recording expenses associated with implementing near-term program activities, including deploying covered conductor in HFRA circuits. However, SCE will not recover in rates amounts recorded in the GS&RPMA until approved by the Commission in this proceeding.

Because the Commission will perform a full reasonableness review of the scope of the GS&RP activities and forecast costs in this proceeding, SCE requests the Commission establish a “reasonableness threshold” to be set at 115% of the total GS&RP capital and O&M forecast of \$582 million (2018 \$) over the 2018 – 2020 time period, or \$670 million (2018 \$). SCE proposes that amounts recorded up to the total recorded spend up to \$670 million (2018 \$) be

deemed reasonable and any amount of total spend recorded in excess of these amounts will be subject to a traditional reasonableness review in a future application.¹³

To further support this “reasonableness threshold,” SCE proposes that no further reasonableness review of the GS&RP be required if: (1) SCE GS&RP spending is less than or equal to the reasonableness threshold and (2) SCE manages the cost per circuit mile for the covered conductor program up to 115% of the estimated amount of \$428/mile in 2018 (which is supported in Chapter IV, Section B). If the cost for the covered conductor program exceeds \$493/mile, escalated appropriately, then SCE will file an Application to demonstrate why the costs to install covered conductors were greater than projected.

The following table compares SCE’s June 1, 2018 average rates, by customer group, to an estimate of proposed average rates if SCE’s revenue requirement and revenue allocation proposal for the GS&RP is approved by the Commission.

Table III-3
Proposed Average Rates and Residential Bill Impacts of GS&RP

Bundled Average Rates (¢/kWh)				
Customer Group	Current Rates	Proposed Increase	Proposed Rates	% Increase
Residential	18.2	0.2	18.4	1.2%
Lighting - Small & Medium Power	17.4	0.1	17.5	0.8%
Large Power	12.4	0.1	12.4	0.6%
Agricultural & Pumping	13.5	0.1	13.6	0.8%
Street & Area Lighting	18.6	0.0	18.7	0.2%
Standby	10.2	0.0	10.3	0.4%
Total	16.3	0.2	16.4	0.9%

Residential Bill Impact				
Description	Current	Proposed Increase	Proposed	% Increase
Non-CARE Residential Bill	\$111.32	\$1.20	\$112.51	1.1%
CARE Residential Bill	\$75.10	\$0.81	\$75.90	1.1%

¹³ The Commission would review GS&RP program costs under the threshold in SCE’s annual ERRR Review proceedings to ensure account entries are stated correctly and associated with GS&RP activities as defined and approved by the Commission in this proceeding. The Commission has approved reasonableness thresholds in other proceedings. *See e.g.*, D.18-05-040, pp. 104-105 (approving threshold of \$343 million associated with SCE’s Transportation Electrification programs); *see also* D.10-04-052, OP. 4 (approving threshold of \$1.45 billion associated with PG&E’s Photovoltaic Program).

IV.

ORGANIZATION OF SCE'S TESTIMONY

SCE's testimony submitted in support of this Application is comprised of five chapters, summarized as follows:

Chapter I – Introduction and Executive Summary provides an overview of SCE's proposals and the impetus for this Application;

Chapter II – SCE's Commitment to Managing Wildfire Risk describes California's sharply increasing wildfire risk, SCE's current approach to managing wildfire risk, and explains key features of SCE's GS&RP focused on addressing our state's increasing wildfire risk;

Chapter III – Risk-Informed Decision-Making provides an overview of SCE's risk-informed decision making process used to develop the GS&RP;

Chapter IV – Grid Resiliency Program Projects reviews the portfolio of mitigation measures in the GS&RP, discusses the need for each mitigation measure, what exists today (and why it should be enhanced), alternatives considered, the deployment timeline, and estimated costs; and

Chapter V – Cost Recovery discusses the estimated revenue requirement and proposed cost recovery for (and rate impact of) the GS&RP, and SCE's proposed reasonableness threshold.

V.

STATUTORY AND REGULATORY REQUIREMENTS

A. Statutory and Other Authority – Rule 2.1

This Application is made pursuant the Commission's Rules of Practice and Procedure, and the California Public Utilities Code.

SCE's request complies with the Commission's Rules of Practice and Procedure, Rules 1.5 through 1.11 and 1.13, which specify the procedures for, among other things, filing documents. In addition, this request complies with Rules 2.1, 2.2 and 3.2.

Rule 2.1 requires that all applications: (1) clearly and concisely state authority or relief sought; (2) cite the statutory or other authority under which that relief is sought; and (3) be verified by the applicant. Rule 2.1 sets forth further requirements addressed separately below.

The relief being sought is summarized above in Sections I (Introduction and Executive Summary) and II (Overview of SCE's Application), and is further described in the testimony (Exhibit SCE-01) supporting this Application.

The statutory and other authority for this request includes, but is not limited to, California Public Utilities Code Sections 451, 454, 454.3, 491, 701, 702, 728, 729, Article 2 and Rule 3.2 of the Commission's Rules of Practice and Procedure, and prior decisions, orders, and resolutions of this Commission.

SCE's Application has been verified by an SCE officer as provided in Rules 1.11 and 2.1.

B. Legal Name and Correspondence

Pursuant to Rule 2.1 of the Commission's Rules of Practice and Procedure, the full legal name of the applicant is Southern California Edison Company (SCE). SCE is a corporation organized and existing under the laws of the State of California, and is primarily engaged in the business of generating, purchasing, transmitting, distributing, and selling electric energy for light, heat and power in portions of central and southern California as a public utility subject to the jurisdiction of the California Public Utilities Commission. SCE's properties, which are located primarily within the State of California, consist mainly of hydroelectric and thermal electric generating plants, together with transmission and distribution lines and other property necessary in connection with its business.

SCE's principal place of business is 2244 Walnut Grove Avenue, Rosemead, California, and its post office address and telephone number are:

Southern California Edison Company
Post Office Box 800
Rosemead, California 91770
Telephone: (626) 302-1212

SCE's attorney in this matter is Connor Flanigan. Correspondence or communications regarding this Application should be addressed to:

Connor J. Flanigan
Senior Attorney
Southern California Edison Company
P.O. Box 800
2244 Walnut Grove Avenue
Rosemead, California 91770
Telephone: (626) 302-6411
Facsimile: (626) 302-6693
Email: Connor.Flanigan@sce.com

Case Administration
Southern California Edison Company
8631 Rush Street
Rosemead, California 91770
Telephone: 626-302-6906
Facsimile: 626-302-5060
Email: Case.Admin@sce.com

C. Proposed Categorization, Need for Hearings, Issues To Be Considered, Proposed Schedule, and Relevant Safety Considerations — Rule 2.1(c)

Commission Rule 2.1(c) requires that all applications shall state “the proposed category for the proceeding, the need for hearing, the issues to be considered including relevant safety considerations, and a proposed schedule.”

1. Proposed Category

Rule 1.3(e) of the Commission's Rules of Practice and Procedure defines “ratesetting” proceedings as “proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities).” This Application will include the setting and investigation of rates, and includes SCE's proposal for a ratemaking mechanism that will influence setting rates in future Applications. Therefore, for purposes of Rule 2.1, SCE proposes this proceeding be categorized as ratesetting.

2. Need for Hearings

The need for hearings in this proceeding, and the issues to be considered in such hearings, will depend largely on the degree to which other parties contest SCE's request. SCE's proposed procedural schedule below assumes evidentiary hearings will be held; however, the need for hearings will be determined by the assigned Administrative Law Judge(s).

3. Issues to be Considered, Including Relevant Safety Considerations

The primary issue to be considered in this proceeding is the reasonableness of SCE's GS&RP as described in Sections I (Executive Summary) and II (Overview of SCE's Application) above and in more detail in SCE's supporting testimony served concurrently with this Application.

D.16-01-017 approved an amendment to Rule 2.1(c) of the Commission's Rules of Practice and Procedure (Title 20, Division 1, of the California Code of Regulations) to require all applications to identify all relevant safety considerations implicated by the application. As explained in SCE's supporting testimony, the primary purpose of the GS&RP is to advance SCE's commitment to protecting public and worker safety in the face of California's sharply increasing wildfire threat. Moreover, all electric infrastructure installed, maintained and operated by SCE as part of its GS&RP is intended to be in accord with SCE's safety-focused practices. This infrastructure will adhere to applicable technical standards.

4. Procedural Schedule

The primary issue to be considered in this proceeding is the reasonableness of SCE's GS&RP proposal, including request for authorization to record and recover the reasonable cost of the GS&RP. To allow the Commission to issue a timely final decision in this proceeding, SCE respectfully requests that the Commission process the Application according to this schedule:

Event	Date
SCE Files Application	September 10, 2018
Protests / Responses to Application	30 days from the date the notice of the filing of the Application appears in the Daily Calendar [approximately October 15, 2018]
Reply to Protests / Responses	10 days from the deadline for filing Protests / Responses [approximately October 25, 2018]
Prehearing Conference	November 8, 2018
Scoping Memo	November 26, 2018
Intervenor Testimony	December 27, 2018
Rebuttal Testimony	February 1, 2019

Event	Date
Settlement Discussions	February 7-8, 2019
Hearings (if necessary)	February 18-22, 2019
Concurrent Opening Briefs	March 11, 2019
Concurrent Reply Briefs	April 10, 2019
Commission Issues Proposed Decision	July 8, 2019
Comments on Proposed Decision	20 days from the date the Commission issues Proposed Decision
Replies to Comments on Proposed Decision	5 days from the deadline for filing comments on Proposed Decision
Commission Issues Final Decision	August 2019

D. Organization and Qualification to Transact Business – Rule 2.2

In compliance with Rule 2.2 of the Commission’s Rules of Practice and Procedure,¹⁴ a copy of SCE’s Certificate of Restated Articles of Incorporation, effective on March 2, 2006, and presently in effect, certified by the California Secretary of State, was filed with the Commission on March 14, 2006, in connection with Application No. 06-03-020, and is by reference made a part hereof.

A copy of SCE’s Certificate of Determination of Preferences of the Series D Preference Stock filed with the California Secretary of State on March 7, 2011, and presently in effect, certified by the California Secretary of State, was filed with the Commission on April 1, 2011, in connection with Application No. 11-04-001, and is by reference made a part hereof.

A copy of SCE’s Certificate of Determination of Preferences of the Series E Preference Stock filed with the California Secretary of State on January 12, 2012, and a copy of SCE’s Certificate of Increase of Authorized Shares of the Series E Preference Stock filed with the California Secretary of State on January 31, 2012, and presently in effect, certified by the California Secretary of State, were filed with the Commission on March 5, 2012, in connection with Application No. 12-03-004, and are by reference made a part hereof.

¹⁴ Rule 2.2 requires the applicant, in this case SCE, to submit a copy of its organizing documents and evidence of its qualification to transact business in California, or to refer to that documentation if previously filed with the Commission.

A copy of SCE's Certificate of Determination of Preferences of the Series F Preference Stock filed with the California Secretary of State on May 5, 2012, and presently in effect, certified by the California Secretary of State, was filed with the Commission on June 29, 2012, in connection with Application No. 12-06-017, and is by reference made a part hereof.

A copy of SCE's Certificate of Determination of Preferences of the Series G Preference Stock filed with the California Secretary of State on January 24, 2013, and presently in effect, certified by the California Secretary of State, was filed with the Commission on January 31, 2013, in connection with Application No. 13-01-016, and is by reference made a part hereof.

A copy of SCE's Certificate of Determination of Preferences of the Series H Preference Stock filed with the California Secretary of State on February 28, 2014, and presently in effect, certified by the California Secretary of State, was filed with the Commission on March 24, 2014, in connection with Application No. 14-03-013, and is by reference made a part hereof.

A copy of SCE's Certificate of Determination of Preferences of the Series J Preference Stock filed with the California Secretary of State on August 19, 2015, and presently in effect, certified by the California Secretary of State, was filed with the Commission on October 2, 2015, in connection with Application No. 15-10-001, and is by reference made a part hereof.

A copy of SCE's Certificate of Determination of Preferences of the Series K Preference Stock, filed with the California Secretary of State on March 2, 2016, and presently in effect, certified by the California Secretary of State, was filed with the Commission on April 1, 2016, in connection with Application No. 16-04-001, and is by reference made a part hereof.

A copy of SCE's Certificate of Determination of Preferences of the Series L Preference Stock filed with the California Secretary of State on June 20, 2017, and presently in effect, certified by the California Secretary of State, was filed with the Commission on June 30, 2017, in connection with Application No. 17-06-030, and is incorporated herein by this reference.

Certain classes and series of SCE's capital stock are listed on a "national securities exchange" as defined in the Securities Exchange Act of 1934, and copies of SCE's latest Annual Report to Shareholders and its latest proxy statement sent to its stockholders has been filed with

the Commission with a letter of transmittal dated March 16, 2018, pursuant to General Order Nos. 65-A and 104-A of the Commission.

E. Balance Sheet and Income Statement – Rule 3.2(a)(1)

In compliance with Rule 3.2(a)(1), Appendix A to this Application contains copies of SCE's balance sheet as of June 30, 2018, and income statement for the period ending June 30, 2018, the most recent period available.

F. Statement of Presently Effective and Proposed Rates – Rules 3.2(a)(2) and 3.2(a)(3)

The presently effective rates and the illustrative changes proposed to be made to those rates are discussed in this Application in Section III.E, and SCE's supporting testimony served concurrently with this Application, and reflect rates as of June 1, 2018. The proposed rates are illustrative and will be updated consistent with the Commission's decision in this proceeding to reflect SCE's then-current authorized revenues when such rates are implemented. SCE's current rates and charges for electric service are in its electric tariffs and schedules on file with the Commission. These tariffs and schedules are filed with and made effective by the Commission in its decisions, orders, resolutions, and approvals of advice letter filings pursuant to Commission General Order 96-A. SCE is not requesting a general revenue increase of over one percent in this Application.

G. Description of SCE's Service Territory and Utility System – Rule 3.2(a)(4)

Because this Application is not a general rate case application, this requirement is not applicable.

H. Summary of Earnings – Rule 3.2(a)(5)

In compliance with Rule 3.2(a)(5), Appendix B hereto contains a copy of SCE's summary of earnings, authorized in SCE's 2017 Post Test Year Advice Letter 3514-E, the most recent period available.

I. Depreciation – Rule 3.2(a)(7)

Because this Application is not a general rate case application, this requirement is not applicable.

J. Capital Stock and Proxy Statement – Rule 3.2(a)(8)

Because this Application is not a general rate case application, this requirement is not applicable.

K. Statement Pursuant to Rule 3.2(a)(10)

Rule 3.2(a)(10) requires the applicant to state whether its request is limited to passing through to customers “only increased costs to the corporation for the services or commodities furnished by it.”

SCE’s Application includes a request for authorization to add various capital expenditures to rate base. These requested rate base additions would authorize a return on, as well as a return of, capital. In that sense, SCE’s request in this proceeding is not limited to passing through to customers “only increased costs to the corporation for the services or commodities furnished by it.”

L. Service of Notice – Rule 3.2(b), (c) and (d)

As required by California Public Utilities Code Section 454, a notice stating in general terms the proposed change will be provided to customers in their monthly bills. SCE has reviewed a draft of its proposed customer notice with the Commission’s Public Advisor.

As required by Rule 3.2(b), a notice stating in general terms the proposed rate change will be mailed to the designated officials of the State of California, and the cities and counties affected by the rate increase proposed in this Application as listed in Appendix C hereto.

Pursuant to Rule 3.2(c), notice will be published in a newspaper of general circulation in each county in SCE’s service territory within which the rate changes would be effective. The cities and counties affected by the rate increase proposed in this Application are shown in Appendix C hereto.

Finally, pursuant to Rule 3.2(d), notice will be furnished to customers affected by the potential rate changes proposed in this Application by including such notice with the regular bills mailed to those customers and by electronically linking to such notice for customer that receive their bills electronically.

VI.

CONCLUSION

SCE respectfully requests that the Commission expeditiously approve this Application as filed.

Respectfully submitted,

PATRICIA A. CIRUCCI
