ORDER

Adopted: April 10, 2018

Released: April 10, 2018

By the Acting Deputy Chief, Enforcement Bureau:

1. The Enforcement Bureau (Bureau) of the Federal Communications Commission has entered into a Consent Decree to resolve the Bureau’s investigation into allegations that Mobilitie, LLC, (Mobilitie) failed to comply with the Commission’s wireless infrastructure rules in effect during the investigation, including rules implementing the National Environmental Policy Act of 1969 (NEPA) and the National Historic Preservation Act (NHPA).1 The Consent Decree also resolves the Bureau’s investigation into whether Mobilitie commenced construction of certain towers prior to registering the structures with the Commission. To implement NEPA and Section 106 of the NHPA, the Commission’s rules require that current and prospective licensees and tower registrants assess certain types of proposed facilities, prior to the start of any construction, to determine the potential for a significant impact on the environment or historic properties.2 Commission rules also direct these entities to coordinate with relevant State governments and Tribal Nations. These requirements promote the nationwide deployment of wireless facilities while balancing such deployments against other important federal, state, and sovereign Tribal interests. Entities that unilaterally choose to begin construction of wireless facilities prior to completing a Commission required environmental and historic preservation review violate federal law and show contempt for the respective jurisdictional authorities.

2. To settle this matter, Mobilitie will implement a robust compliance plan to ensure that it does not violate the Commission’s environmental and historic preservation rules in the future, and pay a \$1,600,000 settlement amount.

3. After reviewing the terms of the Consent Decree and evaluating the facts before us, we find that the public interest would be served by adopting the Consent Decree and terminating the referenced investigation regarding Mobilitie’s compliance with environmental protection and historic preservation requirements found in NEPA and NHPA, and Sections 1.1307, 1.1312, and 17.4 of the Commission’s rules.3

4. In the absence of material new evidence relating to this matter, we do not set for hearing the question of Mobilitie’s basic qualifications to hold or obtain any Commission license or authorization.4

1 See National Environmental Policy Act of 1969, Pub. L. No. 91-190, 83 Stat. 852 (1970) (codified as amended at 42 U.S.C. § 4321 et seq.) (NEPA); National Historic Preservation Act, Pub. L. No. 89-665, 80 Stat. 915 (1966) (codified as amended at 54 U.S.C. § 300101 et seq.) (NHPA).

3 47 CFR §§ 1.1307, 1.1312, 17.4.

5. Accordingly, **IT IS ORDERED** that, pursuant to Section 4(i) of the Act⁵ and the authority delegated by Sections 0.111 and 0.311 of the Commission's rules,⁶ the attached Consent Decree **IS ADOPTED** and its terms incorporated by reference.

6. **IT IS FURTHER ORDERED** that the above-captioned matter **IS TERMINATED** in accordance with the terms of the attached Consent Decree.

7. **IT IS FURTHER ORDERED** that a copy of this Order and Consent Decree shall be sent by first class mail and certified mail, return receipt requested, to Christopher Glass, General Counsel, Mobilite, LLC, 660 Newport Center Drive, Suite 200, Newport Beach, CA 92660, and to David H. II. BACKGROUND

3. Under the Commission’s Wireless Infrastructure Rules, applicants and licensees are required to assess whether certain proposed facilities may significantly affect the environment, as defined in Section 1.1307 of the Rules. This obligation expressly applies to certain facilities for which no preconstruction authorization is required.¹³ Section 1.1307(a) addresses facilities that may affect threatened or endangered species or their critical habitats, or are likely to jeopardize proposed threatened or endangered species or destroy or adversely modify proposed critical habitats; that may affect districts, sites, buildings, structures or objects that are listed, or eligible for listing, in the National Register; that may affect Native American religious sites; that will involve significant change in surface features; or that will be located in residential neighborhoods and will be equipped with high intensity white lights.¹⁴ In considering potential effects on historic properties, Section 1.1307(a)(4) requires applicants to follow the prescribed procedures set forth in the rules of the Advisory Council on Historic Preservation (Advisory Council),¹⁵ as modified by the Nationwide Programmatic Agreement for the Collocation of Wireless Antennas (Collocation Agreement)¹⁶ and the Nationwide Programmatic Agreement Regarding the Section

106 National Historic Preservation Act Review Process (NPA).¹⁷ These agreements tailor and streamline the review and consultation procedures routinely required by the NHPA¹⁸ and the implementing regulations issued by the Advisory Council. Additionally, Section 17.4 of the Rules requires that the owner of any existing or proposed antenna structure, which requires notice of construction to the Federal Aviation Administration, register the structure with the Commission.¹⁹ Applicants and licensees that do not adhere to these regulations potentially jeopardize sensitive environmental areas and invaluable cultural, historic, and religious sites. Additionally, an applicant or licensee's failure to strictly adhere to the rules means that the Commission does not fulfill its obligation under NEPA to ensure that the effect of its licensing or approval of wireless infrastructure does not cause a significant adverse impact on the environment.²⁰

4. Mobilitie, LLC is a privately held, non-licensed entity that constructs, owns, and leases wireless infrastructure for carriers across the United States. The company holds more than a dozen competitive local exchange carrier registrations and holds authorizations from state public utility commissions. Mobilitie typically deploys wireless infrastructure along rights of way, including small cells, communications towers, indoor and outdoor neutral host systems, and Wi-Fi networks. Mobilitie entered into a contractual arrangement with a wireless carrier to construct thousands of small cells, monopoles, and other wireless facilities for the purpose of densifying the carrier's network.

5. On May 9, 2017, the Bureau's Spectrum Enforcement Division issued a Letter of Inquiry to Mobilitie, directing Mobilitie to submit a sworn written response to a series of questions relating to Mobilitie's compliance with the Commission's environmental review process under NEPA and the Commission's historic preservation review process under Section 106 of NHPA. Mobilitie filed responses on June 15, 2017, October 12, 2017, November 13, 2017, January 3, 2018, and February 1, 2018. The Bureau and Mobilitie entered into Tolling Agreements to toll the statute of limitations, and negotiated the terms of the Consent Decree. The Investigation revealed that, in an effort to meet certain deadlines, Mobilitie had commenced construction of certain wireless facilities without securing all necessary regulatory and environmental approvals required under the Commission's Wireless

¹⁸ 54 U.S.C. § 300101 *et seq.* The NHPA requires that a federal agency consider the effects of its federal undertakings, including actions that it authorizes or approves, on historic properties prior to issuing federal licenses, permits, or approvals. See 54 U.S.C. §§ 306108, 300320. This review is commonly referred to as "Section 106 Review" because the provision requiring the review was originally enacted as Section 106 of the NHPA. In considering such effects, the NHPA further requires the federal agency to consider the views of expert agencies. Specifically, the NHPA requires the federal agency to consider the views of the Advisory Council, which is the federal agency responsible for implementing the NHPA; the appropriate State Historic Preservation Officer; and, if historic properties of religious or cultural significance to federally recognized Tribal Nations or Native Hawaiian organizations may be affected, their representatives. See 54 U.S.C. §§ 302104, 302706, 306108, 304101. As authorized by the Advisory Council, the Commission's environmental rules delegate to its licensees, permittees, and applicants initial responsibility for identifying historic properties and evaluating the effects that their proposed facilities may have on such properties, but the Commission remains ultimately responsible for ensuring that the Section 106 process occurs in accordance with applicable statutory and regulatory provisions, as well as for government-to-government consultation with federally recognized Tribal Nations. See 47 CFR § 1.1307(a)(4); see also 36 CFR § 800.2(a)(3); *NPA Report and Order*, 20 FCC Rcd at 1076-77, para. 5.

Infrastructure Rules. Specifically, prior to construction, Mobilitie did not timely complete registration of certain antenna structures with the Commission as required under Section 17.4 of the Rules and did not complete the environmental and/or historic preservation review process set forth in Section 1.1307(a) of the Rules.

6. To settle this Investigation, Mobilitie has agreed to pay a one million six hundred thousand dollar (\$1,600,000) settlement amount to the United States Treasury. Additionally, Mobilitie has agreed to enhance its environmental and historic property review compliance procedures by reviewing and updating, as necessary, its existing compliance guidelines, by training all current and new Covered Employees on the current requirements, by requiring Covered Employees to report to management instances of noncompliance with the Wireless Infrastructure Rules, and by self-reporting any apparent violations to the Bureau until the end of the compliance period.

III. TERMS OF AGREEMENT

7. **Adopting Order.** The provisions of this Consent Decree shall be incorporated by the Bureau in an Adopting Order.

8. **Jurisdiction.** Mobilitie agrees that the Bureau has jurisdiction over it and the matters contained in this Consent Decree and has the authority to enter into and adopt this Consent Decree.

The Bureau further agrees that, in the absence of new material evidence, it will not use the facts developed in the Investigation through the Effective Date, or the existence of this Consent Decree, to institute, on its own motion, any new proceeding, formal or informal, or take any action on its own motion against Mobilitie concerning the matters that were the subject of the Investigation. The Bureau also agrees that, in the absence of new material evidence, it will not use the facts developed in the Investigation through the Effective Date, or the existence of this Consent Decree, to institute on its own motion any proceeding, formal or informal, or to set for hearing the question of Mobilitie's basic qualifications to be a Commission licensee or hold Commission licenses or authorizations.²¹
